The INL International Iberian Nanotechnology Laboratory, located in Braga (North of Portugal) was founded by the governments of Portugal and Spain under an international legal framework to perform interdisciplinary research, deploy and articulate nanotechnology for the benefit of society. INL aims to become the world-wide hub for nanotechnology addressing society's grand challenges.

El Laboratorio Internacional de Nanotecnología Ibérica INL, ubicado en Braga (Norte de Portugal) fue fundado por los gobiernos de Portugal y España bajo un marco legal internacional para realizar investigaciones interdisciplinarias, desplegar y articular nanotecnología en beneficio de la sociedad. El INL pretende convertirse en el hub internacional de nanotecnología que aborde los grandes desafíos de la sociedad.

O Laboratório Ibérico Internacional de Nanotecnologia do INL, localizado em Braga (Norte de Portugal), foi fundado pelos governos de Portugal e Espanha sob um quadro jurídico internacional para realizar pesquisas interdisciplinares, implantar e articular nanotecnologias para o benefício da sociedade. O objetivo do INL é se tornar o hub internacional em nanotecnologia que lida com os grandes desafios da sociedade.

Creation of a cross-border ecosystem of health innovation
